

STEM Week – May 11-15, 2015

Science | Technology | Engineering | Math

Register Today!
Bright Horizons
at
Los Angeles Hope Street

Calling all future scientists and engineers!

You're invited to join us for a week of fun and discovery as we explore the areas of science, technology, engineering, and math.

Bright Horizons STEM Week

During STEM Week, children will have the opportunity to experiment, build, knock down, collect, sort, and have fun... all while learning. Activities and games are planned throughout the week to spark creativity and critical thinking:

- Exploring Ramps - investigate the forces of nature and recognize the characteristics of motion.
- Dancing Raisins – understand quantities related to numbers and consider non-visible properties of materials.
- Swirly Colors – explore how properties can change and to use geometry concepts such as more/less.

Space is limited so reserve your spot today.
