

Love of Language Week: Sign Language for Infants & Toddlers

Register Today!
April 25-29, 2016

Long before babies begin using words, they can use sign language to communicate their needs and wants - typically around 8 months. Researchers theorize that learning sign language fuels motivation for other forms of communication.

Bright Horizons at UTC invites you and your family to join us for Love of Language Week. From April 25 – 29, we'll focus on basic sign language development, helping infants and toddlers to communicate their needs. In addition, parents will be provided with take-home resources to foster sign language development at home.

Activities Include:

- Learning colors by singing songs and signing colors in the songs
- Playing 'Hide and Go Seek' with toys and other objects and learning to sign each object as it is found
- Learning table manner words such as please, thank you, more, all done, eat, drink, sit, and milk
- Creating a book of themselves doing basic signs (toddlers)
- Learning signs for nurse rhymes (toddlers)

Space is limited so reserve your spot today.

Please RSVP to 858.458.0042 or utc@brighthorizons.com

We look forward to seeing you soon!
