

## ADVENTURE TOPIC

# PRESCHOOL ADVENTURE DAYS

June

**8-12**  
**A Little Dirt**  
**Never Hurt**

Get ready to get messy! Join us for a week of exploration into Ooey, Goopy Mud and Dirt. From making mud pies, to dirt painting, to growing plants, children will participate in math, art, science, sensory, and so much more while using dirt.

**15-19**  
**Move & Groove**

Outdoor time; extra daylight, warm temps...summer makes it easy to live healthy, to be active, and eat well. Run, play, and create magical moments during this Adventure week.

**22-26**  
**Mix it Up:**  
**Chemistry for**  
**Kids**

It's time for scientists to investigate changing substances! From investigating the properties of water to developing a mud laboratory, this adventure experience will be full of discoveries.

**29-2**  
**Journey Around**  
**the World**  
*\*\*CLOSED July 3rd*

The world is a mighty big place - Explore different cultures, discover similarities and differences, plan exciting adventures, and get to know the community right in your own backyard.

**6-10**  
**The Art of**  
**Kindness**

The development of compassion, empathy, and social awareness is important for helping to create a better world. During this Adventure week, children will increase their views on diversity of people, participate in acts of kindness in their classroom and community, and promote peace within themselves and others.

**13-17**  
**Fun with**  
**Physics**

Did you now that physics are about how objects interact with each other? Experimenting with materials and exploring simple machines gives children the opportunity to take toys apart, invent new things, easily move heavy objects, design playground equipment, make helicopters, investigate inclines, and more!

**20-24**  
**Get in the Game**

Children love games! Whether indoors or outdoors, playing games gives children the opportunity for team work, problem solving, and expanding their mental and/or physical abilities. They will even develop and design their own games. This Adventure will challenge their minds, their bodies, and creativity.

**27-31**  
**Soil: Can you**  
**Dig It?**

Children will examine worms, search for rocks, manufacture games and trinkets, examine microscopic life in soil, make-up songs, and live it up!

**3-7**  
**Full STEM**  
**Ahead**

Children will delight in hands on experiments and having the opportunity to invent, test, and participate in STEM experiences. By incorporating the elements of STEM, science, technology, engineering, and math, into exciting activities and projects, the world will be their lab as they make their very own discoveries.

**10-14**  
**Ecosystem**  
**Explorers**

Did you know that the earth has several kinds of habitats, or areas that have certain plants, animals, and climate? Children can thrill in their discoveries of life in ponds, deserts, and forests. Even in urban areas, children create ecosystems, learn about where different species thrive, and plan activities that honor life on earth.

**17-21**  
**Adventures into**  
**the Great**  
**Outdoors**

It's important to help connect children with nature whenever we can, and the summer gives us even more time to be outdoors! There is so much to explore and learn about. From camping, to natural items, to water, and fossils, join us for this adventure filled week!

**24-28**  
**Imagine It!**

Come visit far away make-believe lands, encounter mystical creatures and become a superhero! There's no limit to the imagination. Children will explore fantasy and go beyond the real world!

**31-4**  
**Adventures in**  
**the Arts**

The arts provide unlimited ways for children to express their individual personalities. Children will have many opportunities for developing and showcasing their creativity. Everyone gets a chance to shine!
